

CalAmp Vision™

AI-powered dash camera technology for safer fleets and reduced liability

CalAmp Vision combines smart dash camera technology with AI-enabled driver alerts to help fleets address distraction, speeding, and tailgating. It automatically captures video around critical events, supports rapid review and coaching, and provides downloadable evidence to help reduce liability.

Cal/Amp®

Highlights

AI-enabled monitoring identifies high-risk driving behaviors

Spoken in-cab alerts prompt real-time corrective action

Intuitive alerts and reporting support proactive driver coaching

Automatic video capture documents critical driving events

Curated video enables prompt event review

Downloadable footage helps address false claims and liability
